

Delta SubSea

1.5 Inch Soft Line Cutter

Small heavy duty soft line cutter designed for subsea deployment. The design with T-handle allows for easy deployment by ROV manipulator. Compact design is ideal for operation in confined spaces or where access is limited. The Tool consists of a hardened tool steel blade and side plates, a hydraulic cylinder to actuate the blade. One side of each plates is open to allow the cutter to be placed on the line.

Features

- ▲ Hydraulic Supply – (220 bar) 3000 psi input pressure at 2gpm max.
- ▲ Max Cable dimension 1 ½"
- ▲ Spare parts including blades, and seals kits area available

Specifications

- ▲ Weight in air – 14kg
- ▲ Weight in water – 12kg
