

Delta SubSea

5K Water Blaster

Delta SubSea offers high pressure water blasters for use in cleaning Subsea structures of debris and marine growth. These are industry standard, hydraulically driven pumps that can generate the force necessary for even the toughest cleaning jobs.

Features

- ▲ #8 JIC hoses for supply and return of the motor
- ▲ #6 JIC hose for motor case drain
- ▲ #8 JIC high pressure hose for water nozzle

Specifications

Maximum

- ▲ Input pressure: 3000psi
- ▲ Output pressure: 5000psi

Flow

- ▲ Input: 12gpm max
- ▲ Output: 4.5gpm max

Weights

- ▲ In Air: 100lbs
- ▲ In Water: 60lbs

Dimensions

- ▲ 15"W x 27"L
