

## DEEPOCEAN OFFSHORE SERVICES BASE - BLYTH

### SPECIFICATION SHEET

### UK MARINE SERVICES BASE

DeepOcean Offshore Services Base - Blyth is a purpose built asset and project support facility that can provide an integrated mobilisation, storage, logistics and maintenance service.

Conveniently located for road, rail and air connections and with immediate and easy marine access to the North Sea, the facility offers access to two Heavy Lift Quay's, with crane support up to 250Te available on-site.

With water depth to 8.5m (North Quay) Lowest Astronomical Tide (LAT) available all year round providing access for larger vessels and with on-site logistic support (bunkering, warehousing, supply), the facility provides a convenient, cost effective solution for operations supported by dedicated on-site staff.

DeepOcean Offshore Services Base - Blyth offers vessel mobilisation with berthing facilities and access to a team of experienced personnel including a skilled supply chain of engineering, fabrication, freight forwarding lifting, testing and service infrastructure.

The site offers secure internal and external storage. External secure storage is available for storage of cables and other equipment depending on Client requirements.
